

SHAMAI SYSTEMS

Integrated Security, Networking & Risk Management Solutions

A Brand of Shamai Data Solutions Pvt Ltd

DELIVERING SECURE, SCALABLE & COMPLIANT INFRASTRUCTURE

Trusted Technology Partner for Critical Infrastructure

About Shamai Systems

Shamai Systems is a **premier system integrator** specialising in end-to-end security, networking, and risk management solutions. With deep domain expertise across banking, government, and enterprise sectors, we deliver infrastructure that is **resilient, compliant, and future-ready**.

- Leading system integrator with pan-India execution capability
- Deep expertise in banking & government deployments
- Full compliance with **RBI / NABARD / IS Audit** frameworks
- Robust AMC support and long-term service contracts
- Trusted by DCCBs, cooperative banks & municipalities

Our Core Capabilities

CCTV Surveillance

Fire Alarm Systems

Burglar Alarm

LAN / WAN / RF Networking

UPS & Power Systems

Biometric & Access Control

Digital Signage

SIRMS Platform

OUR REACH

Scale That Speaks for Itself

Numbers that reflect our commitment to delivering infrastructure at scale — across branches, campuses, and command centres.

195+

Bank Branches Secured

DCCBs, cooperative banks,
and nationalised bank
deployments

500+

Projects Delivered

Across security,
networking, and power
infrastructure

2000+

Devices Managed

Active endpoints under
AMC and remote
monitoring

12+

Years of Expertise

Deep domain knowledge in
critical infrastructure
sectors

Security & Surveillance Solutions

CCTV Surveillance Systems

HD/4K IP cameras, NVR/DVR systems, video analytics, remote monitoring, and centralised command integration — designed for banks, ATMs, campuses, and smart city infrastructure.

Biometric & Access Control

Multi-factor authentication systems including fingerprint, face recognition, and card-based access. Seamlessly integrated with HR and attendance management for enterprises and government offices.

Fire & Burglar Alarm Systems

Conventional and addressable fire detection, intruder alarm systems, and real-time alert dashboards. Compliant with NBC norms and RBI branch security guidelines.

Networking & Power Infrastructure

LAN / WAN / RF Networking

End-to-end structured cabling, managed switches, wireless RF networks, and WAN connectivity solutions for multi-branch banking networks and government campuses. Our deployments ensure **99.9% uptime** and seamless data flow across geographically distributed sites.

- Structured cabling & fibre optic backbone
- Managed L2/L3 switching & routing
- Wireless mesh and RF point-to-point links
- VPN, SD-WAN, and MPLS integration

UPS & Power Management

Reliable power continuity is mission-critical for banking and surveillance infrastructure. Shamai Systems delivers **online UPS, servo stabilisers, battery management systems**, and comprehensive AMC support to ensure zero downtime.

- Online UPS from 1 KVA to 200 KVA
- Servo voltage stabilisers for branch protection
- Battery health monitoring and replacement
- Preventive maintenance contracts (AMC/CMC)

FLAGSHIP PRODUCT

SIRMS — Security & Infrastructure Risk Management System

SIRMS is Shamai Systems' proprietary intelligent platform that unifies security monitoring, asset tracking, compliance reporting, and incident management into a **single, centralised dashboard**. Built for multi-branch banking networks and large campuses, SIRMS is the digital backbone of modern risk management.

Centralised Monitoring

Real-time visibility across all branch security systems — CCTV, alarms, access control — from one command interface.

Regulatory Compliance

Automated audit trails and compliance reports aligned with RBI, NABARD, and IS Audit requirements — reducing manual overhead.

Incident Management

Automated incident logging, escalation workflows, and real-time alert dispatch to security personnel and management.

Cloud-Ready Architecture

Hybrid cloud deployment with on-premise control for data sovereignty — ideal for banks and government departments.

Purpose-Built for High-Stakes Environments

BANKING

- BRANCH SECURITY
- ATM SURVEILLANCE
- RBI COMPLIANCE

GOVERNMENT

- ACCESS CONTROL
- SURVEILLANCE
- NETWORKING

SMART CITIES

- COMMAND CENTRES
- PUBLIC SURVEILLANCE
- TRAFFIC MONITORING

UNIVERSITIES

- PERIMETER SECURITY
- ATTENDANCE
- VISITOR MANAGEMENT

UNIVERSITIES

ENTERPRISES

- HQ & BRANCH SECURITY
- IT NETWORKING
- POWER BACKUP

The Preferred Security Partner for Indian Banking

Shamai Systems has an unmatched track record in securing banking infrastructure across India. From nationalised banks and DCCBs to urban cooperative banks, our solutions are engineered to meet the **stringent security and audit requirements** mandated by the Reserve Bank of India and NABARD.

RBI Compliance Ready

All deployments meet RBI's branch security and IS audit guidelines without exceptions.

ATM & Currency Chest Security

Specialised surveillance, access control, and alarm systems for ATMs and high-value vaults.

Multi-Branch Rollouts

Proven capability to execute simultaneous deployments across 50+ branches with consistent quality.

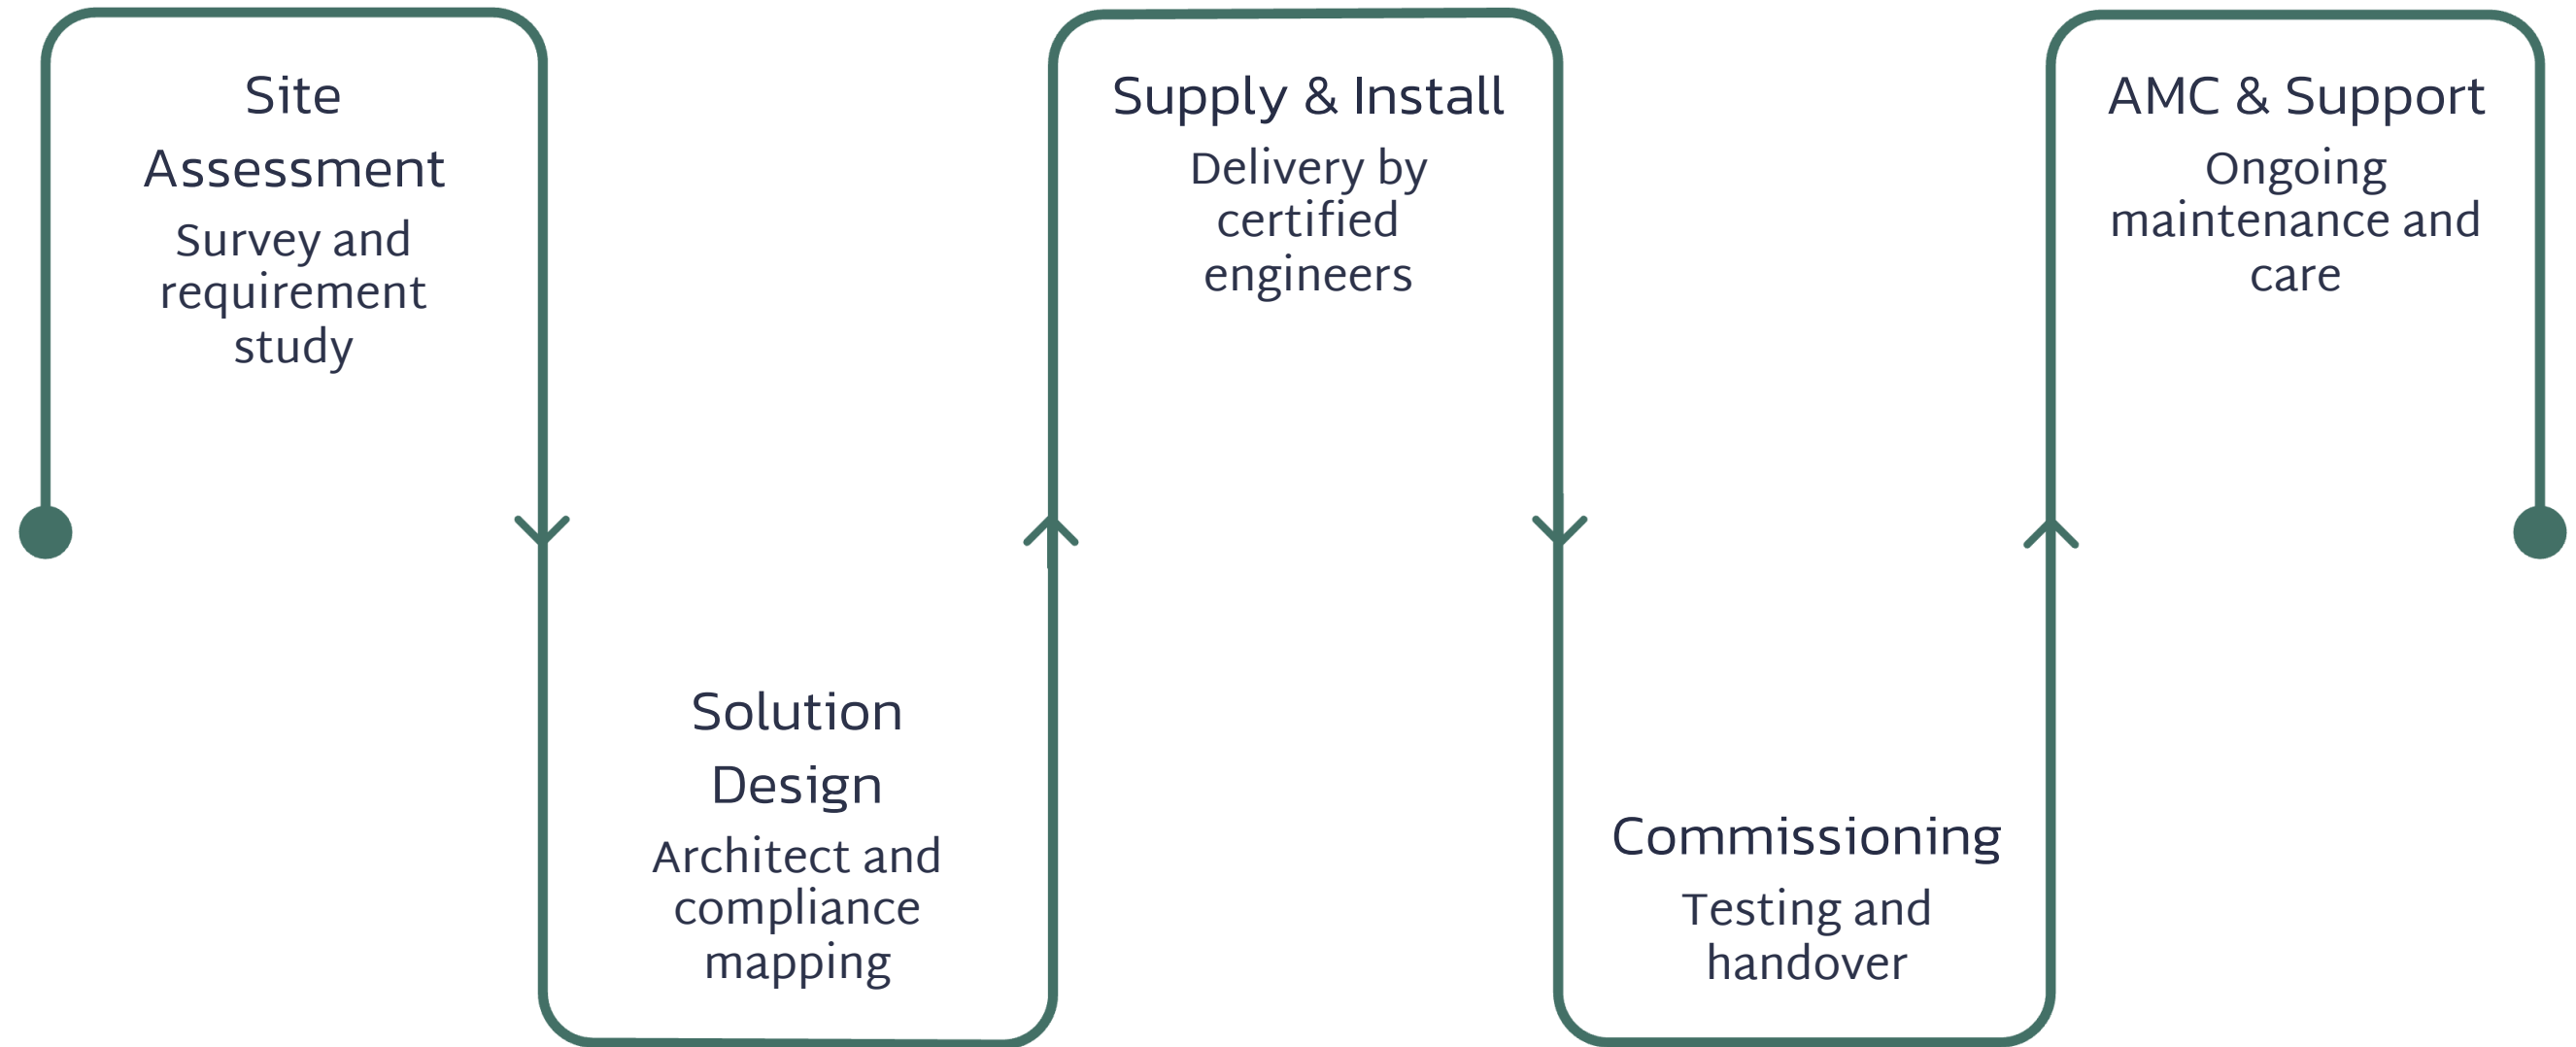

Compliance Frameworks

- RBI Branch Security Guidelines
- NABARD IT Security Framework
- IS Audit Requirements
- NBC Fire Safety Norms
- NVS / MES Procurement Standards
- GeM Portal Registered Vendor

AMC & Service Support

Dedicated service engineers, preventive maintenance schedules, and guaranteed SLA response times — ensuring your infrastructure never sleeps.

From Consultation to Command — End-to-End Delivery

Every Shamai Systems project follows a rigorous, structured delivery methodology — ensuring that deployments are on time, compliant, and built to last. Our certified engineers handle every phase in-house, eliminating third-party risk and maintaining quality control from day one.

WHY CHOOSE US

The Shamai Systems Advantage

Government & Banking DNA

Deep understanding of procurement processes, compliance requirements, and operational realities in public sector environments.

Single-Vendor Accountability

Design, supply, installation, and AMC — all under one roof. No fragmented vendors, no accountability gaps.

Compliance-First Approach

Every solution is designed to meet regulatory mandates before anything else — protecting your institution from audit risk.

Scalable Architecture

Solutions designed to grow with your organisation — from a single branch to a 500-location national network.

Connect With Shamai Systems

We invite senior decision-makers, procurement officers, and technology heads to schedule a **confidential consultation** with our solutions team. Whether you are planning a new deployment, upgrading legacy infrastructure, or seeking a reliable AMC partner, Shamai Systems is ready to deliver.
